

RECOMMENDATIONS FOR THE NEXT **GOVERNMENT OF CANADA**

VÉLO CANADA BIKES AND OUR ALLIES ASK THAT ALL FEDERAL PARTIES CONSIDER INCLUDING THE FOLLOWING IN THEIR 2019 ELECTION PLATFORMS

In collaboration with provincial and territorial governments, the Federation of Canadian Municipalities, the Assembly of First Nations and additional stakeholders, **the party, if elected, will do the following:**

#1 | SUPPORT THE DEVELOPMENT OF AN ACTIVE TRANSPORTATION STRATEGY FOR CANADA. As part of this strategy, the government will establish a national-level forum to consult, share, and develop a plan for safely moving more people and goods by bicycle and by foot, in a wide variety of Canadian settings including urban, rural and remote communities. The plan will consider the unique needs of the different modes of active transportation, particularly biking and walking, and the importance of building active transportation infrastructure to maximize existing and future investments in public transit infrastructure.

#2 | DEVELOP A FUNDING STREAM designed to rapidly increase the development and improvement of active transportation infrastructure and related traffic calming in all Canadian municipalities and in rural areas.
